# Terms and Conditions

**Qualifying Members:** Residential electric members residing in the Garkane Energy service territory who purchase their electricity from Garkane Energy qualify. Landlords who own rental properties served by the company in the service territory also qualify for this program. Incentive checks will be issued in the name of the member on the qualifying account. If you are a property owner, landlord, property management company or homeowner association and not listed on the account where qualified equipment was installed or services performed you must submit a completed Third Party Payment Addendum to receive incentive check(s) made payable to you.

**Member responsibilities:** Member agrees to indemnify and release Garkane Energy, their affiliates, officers and employees from all claims, demands, losses, damages, costs, expenses and liability (legal, contractual or otherwise), which arise from or are in any way connected with any: (1) injury to or death of person(s), (2) damage to property of members, (3) violation of any applicable laws, statutes or ordinances, or (4) any act omission or negligence of the installing person(s) or company.

Member will allow, if requested, a representative from Garkane Energy, or any authorized third party reasonable access to member's property for inspections, including but not limited to: (a) post-installation equipment inspection to check implemented measures and to verify compliance with the program requirements; and (b) post-operation inspection to verify energy savings of the measures after a period of operation; and (c) inspection for any other reason.

It is member's responsibility to obtain all licenses, permits or other approvals required for installation of products or measures under the program. Member is solely responsible for proper disposal of any and all removed products.

Member is solely responsible for the economic and technical feasibility, operational capability and reliability of Member's installations, products and solutions. Garkane Energy makes no representation or warranty and assumes no liability with respect to services of any installation person(s) or company, quality, safety, performance or other aspect of any design, system or appliance installed pursuant to the program or this Incentive Application and expressly disclaim any such representation, warranty or liability. Under no circumstances shall Garkane Energy be liable for any monetary damages related to the program including any action or inaction of installation person(s) or company performing work under the program. All projected savings are intended to be estimates and Garkane Energy does not guarantee any level of savings.

The Member hereby transfers to Garkane Energy all environmental attributes ("Environmental Attributes") attributable to program qualifying equipment or its operation. Environmental Attributes include any and all credits, benefits, emissions reductions, offsets and allowances, howsoever entitled, resulting from the avoidance of the emission of any substance to the air, soil or water through reduced generation of energy or other savings or offsets on account of the qualifying equipment. The customer will not claim ownership of any Environmental Attributes. As long as the customer at the same time states the qualifying equipment was made possible with funding from Garkane Energy, the customer may claim that it is facilitating the production of the Environmental Attributes attributable to the qualifying equipment.

**Jury waiver:** To the fullest extent permitted by law, each of the parties hereto waives any right it may have to a trial by jury in respect of litigation directly or indirectly arising out of, under or in connection with this agreement. Each party further waives any right to consolidate any action in which a jury trial has been waived with any other action in which a jury trial cannot be or has not been waived.

**Application timeline:** Incentive Application and required documents must be postmarked within 180 days of the service completion date. Incentive checks are issued within 45 days of receipt of the completed and approved Incentive Application. Incentives are not to exceed the purchase price of the equipment or service. Equipment and service work may be inspected for compliance. Incentives are subject to tariff approval and may change without notice. Additional terms and conditions may apply.

**Application details:** If your application is selected for inspection, it will not be processed until the review is satisfactorily completed.

Garkane Energy issues incentives in the form of checks not utility bill credits. Garkane Energy will not pay incentives for equipment that is mislabeled or misrepresented by installation companies regarding incentive qualifications.

Incentive Application must be postmarked within 180 days of the service completion date.
